

3rd ANNUAL

WISCONSIN SCHOOL BUS DRIVER SAFETY COMPETITION

June 23 & 24, 2023

Driver Rules Regulations & Information
Fox Valley Technical College
Appleton, Wisconsin

Wisconsin School Bus Association
Safely Transporting Wisconsin's Future

INTRODUCTION

Safety Competitions have proven to be one of the most effective instructional tools to improve a person's driving skills. The State School Bus Drivers Safety Competition emphasizes the following objectives:

- To motivate reinforcement of learning and implementation of good practices involved in superior job performance as a school bus driver.
- To recognize excellence and provide for demonstration of the skills and responsible performance of the demanding job of the school bus driver.
- To develop public awareness of the skills and responsibilities involved in the job of a school bus driver.
- To encourage communication between drivers to share awareness and experience.

GENERAL INFORMATION

The 2nd Annual State School Bus Driver Safety Competition will be held on Saturday June 25, 2022, at Fox Valley Technical College in Appleton, WI. There are three bus types to compete in: Type A, Small Bus, (29 passenger); Type C, Conventional, (74 passenger); and Type D, Transit, (72 passenger).

The Competition will initially limit the maximum number of contestants to 100 and ten (10) registrants per organization. If 100 contestants have not been reached by May 31, WSBA may open up the remaining slots to organizations already registered.

There is a **\$50 registration fee per contestant**. Payment is to be remitted with the contestant's application. Contestants will be responsible for their travel and lodging expenses. The written test and driving test will be conducted at Fox Valley Technical College.

The information available in this booklet is designed to serve as a guide in the preparation of contestants for the State School Bus Driver Safety Competition. It is suggested, though not required, that contestants be selected by competing in local or Intermediate Unit competitions prior to entry in the State Safety Competition.

PROCEDURES

Contestants will be assigned a number, by random drawing, when registering. Contestants will be expected to drive in that order, unless the judges rule otherwise.

Registration for optional early arrival contestants starts Friday, June 23, from 5:00 – 6:00 pm. There will be a drive-through of the course **at 6:00 pm.**

Saturday registration will take place from 6:30 - 7:45 am. All contestants must be finished with registration by 7:45 am, in order to compete.

Safety Competition orientation will follow Saturday's registration (see Schedule of Activities).

LATE ARRIVAL WILL DISQUALIFY A CONTESTANT!

At registration, each contestant will be required to show their Class A, or B with P and S endorsements

THERE IS NO EXCUSE FOR NOT HAVING THE CORRECT LICENSE. DRIVERS WHO DO NOT BRING THE CORRECT LICENSE WILL BE DISQUALIFIED. THERE WILL BE NO EXCEPTIONS. PLEASE HAVE CARDS CHECKED BY YOUR SUPERVISOR PRIOR TO TRAVELING.

All contestants must report No Later Than **7:45 a.m., Saturday, June 24**, to Fox Valley Technical College for instructions on driving requirements. Actual driving phase will start after the orientation and drive-through. Contestants must stay on property until called for starting the competition.

ANY DRIVER WHO KNOWINGLY ACCEPTS SIGNALS FROM SPECTATORS WILL AUTOMATICALLY BE DISQUALIFIED.

In all driving events, bus doors must be kept closed unless rules and regulations of a Safety Competition event require they be opened. It will be assumed that the driver has pupil passengers on board throughout the contest, and therefore, must conduct him/herself accordingly. Demerits will be assessed any time the door is improperly opened during operation of the vehicle. No drink or food will be allowed on the bus. A rider will be on each bus to time the event, provide direction to each course event, and assist with any questions.

Each contestant will be required to maintain a proper driving position except when Safety Competition Rules and Regulations require the contestant to leave the seat of the vehicle. Proper driving position is being firmly in the seat with feet firmly on floor or on controls. A contestant will not be permitted to put his/her head out of the bus window. Seatbelt must be worn and snugly fastened during the competition. Demerits will be deducted at the beginning of the driving course if the belt is not properly fastened; headlights are not on; inappropriate appearance such as flip-flop sandals; cut-off jeans, etc.

These contest rules will apply even though they may differ from rules and regulations under which the driver normally operates.

Contestants will be placed on their honor not to assist each other in any way. In the interest of fair play and good sportsmanship, contestants should not discuss the bus defects with each other or even with spectators. This could result in total disqualification.

The bubble of the tire is the part of the tire for measuring on parallel, curb-line, back-up, and tread of tire for controlled right turn. Location and size of course area will help determine length and/or entrance for the events. The turning radius of the buses being used will also determine the length of events.

Winners will be announced after all scores are totaled. Each contestant will receive a certificate of participation. Awards will be presented to the top three contestants receiving the most points in the three classes.

First-place winners' information from each class will be sent to the National School Transportation Association (NSTA) International Competition Committee should they choose to advance and compete nationally. All costs associated with the International Competition are the sole responsibility of the driver's organization.

GRIEVANCE PROCEDURE - Only contestants may file a grievance during any portion of the contest. The Grievance Committee will review each grievance. The committee's decision will be final.

TIE - In the event of a tie, the tie will be broken by totaling the first four (4) driving events if the contestant is involved in the tie. If a tie still exists, the fifth driving event will be considered, etc.

Each contestant should very carefully read all the instructions in this booklet. These instructions explain what will be expected in each phase of the Safety Competition activities.

SUMMARY OF POINTS PER EVENT AND TOTAL POSSIBLE POINTS

EVENT	POINT VALUE
Written Examination (45 minutes)	100
Stop Line	50
Offset Backing	50
Diminishing Clearance	50
Railroad Crossing	50
Straight Line Backing	50
Right Turn	50
Simulated Bus Stop	50
Backing	50
Roadside Stop	50
Vehicle Inspection (15 minutes)	150
TOTAL POSSIBLE POINTS	700

WRITTEN TEST

MAXIMUM SCORE - 100 points

PURPOSE OF THE EVENT: There are many rules and regulations with which a school bus driver must become familiar with which he/she must faithfully observe. These laws, rules, and regulations were established because of years of study and experience. The purpose of this test is to determine the extent of the contestant's familiarity with these important guidelines of safe driving.

INSTRUCTIONS: The contestant will receive a test booklet consisting of fifty (50) questions. The contestant will choose the best answer and mark his/her answer sheet accordingly. Contestants must print legibly and clearly on the answer sheet.

A forty-five (45) minute time limit is given to complete the test.

SCORING: For each correct answer the contestant is awarded (2) points. All questions were compiled from WI DOT publications:

- Wisconsin Driver's Manual, WIDOT
- Wisconsin Consolidated Statutes, Trans 300
- Wisconsin Commercial Driver's License Manual

All answers were determined by information found in the above publications.

STOP LINE

MAXIMUM SCORE - 50 points

PURPOSE OF THE EVENT: To make a complete stop while in the process of picking up or discharging students.

INSTRUCTIONS AND SCORING: A **stop line**, six feet (6') long, will be established at the end of a straight line. The contestant will be expected to bring the bus to a complete stop as close to the stop line as possible. **Only one stop allowed.** The contestant will sound the horn after the stop is made and the vehicle has been placed in neutral gear and the park brake set. Demerits will be given for more than one stop. To determine the contestant's depth perception, ability to use cross view mirrors, and the ability of the driver to bring the bus to a smooth,

RAILROAD CROSSING

MAXIMUM SCORE - 50 points

PURPOSE OF THE EVENT: To evaluate the driver's degree of care and knowledge of laws, rules and regulations required to operate a school bus across railroad tracks.

INSTRUCTIONS: A simulated railroad crossing will be established. Layout will be as follows:

1. A simulated roadway that crosses a parallel set of tracks
2. A railroad crossing sign will be placed in the position at right side of roadway

SCORING: Everything required of a driver will be judged from the time the contestant approaches the crossing until he/she reaches the other side of the crossing. Drivers will be checked on use of correct lights, mirrors, stopping bus, opening door, checking traffic, driving across railroad tracks, etc. While most violations charged in this test are violations of fixed laws and regulations, some are based on generally good, acceptable, safe driving procedures.

SIMULATED BUS STOP

MAXIMUMSCORE - 50 points

PURPOSE OF THE EVENT: The next event simulates loading students.

INSTRUCTIONS: A line will represent the edge of the roadway loading area. For loading passengers the contestant will pull in to the loading area. The contestant will utilize the yellow warning lights (100 feet) prior to entering the loading zone. The contestant will then use the red crossover lights and stop arm when stopped to load students. The contestant must stop at least 10 feet back from the student, but not more than 15 feet and out at least 6 feet away from student. During the maneuver the contestant will be judged for mirror use before and after the stop, proper use of lights, smooth stopping, lane position while stopped, transmission in neutral before door is opened.

RIGHT TURN

MAXIMUMSCORE -50 points

PURPOSE OF THE EVENT: The event is a right-hand turn at a street intersection and determines a driver's proficiency in judging the distance and handling of a bus.

INSTRUCTIONS & SCORING: Scoring will be based on the method in which the driver enters and recovers from the turn. If any tire touches the curb line at any time during this test, 50 demerits will be charged. If the right edge (the visible edge) of the right rear tire (outside tire on dual wheels) is completely within a demerit zone, the appropriate demerits will be made. To warrant a demerit score, the color of the demerit stripe shall be visible to the curb-side judge while the tire is completely within the demerit zone. For scoring purposes, only that portion of the tire tread that is in contact with the ground will be judged. Demerits increase in value as the position of the right rear outside tracking wheel moves in a wider arc throughout the turn. Fifty (50) demerits shall be charged if the driver fails to activate the right turn signal.

DIMINISHING CLEARANCE

MAXIMUMSCORE – 50 points

PURPOSE OF THE EVENT: In this event driver is required to drive the bus in a straight line with diminishing clearances, and to drive in a smooth, continuous manner.

INSTRUCTIONS: For conducting this event, four (4) pairs of parallel standards will be set up; each pair of standards parallel one to the next. The distance between each pair of standards will be approximately twenty-five feet (25'). The width of each pair will vary as follows:

1. At the start of the event the width of the first pair of standards will be equal to the widest part of the bus plus eight inches (8").
2. The width of the second pair of standards will be as above except plus six inches (6").
3. The width of the third pair of standards will be as above except plus four inches (4").
4. The width of the fourth pair of standards will be as above except plus two inches (2").

The driver will be expected to proceed through this lane in a smooth and continuous manner without touching any of the marker standards.

STRAIGHT LINE BACKING

MAXIMUMSCORE -50 points

PURPOSE OF THE EVENT: Properly demonstrate a straight line back.

INSTRUCTIONS: The wheels of the bus must travel the path without striking or moving the markers with any wheel. Pull forward past the alley. Stop when the judge raises their hand (like this). Then back straight through the

alley until the front of your vehicle has cleared the last set of cones. The distance between the markers is the width of the dual wheels plus three inches (3"), the bubble of the tire is the tire. The total distance of the event depends on the amount of space available. To determine the driver's ability to maneuver the wheels of the school bus over a straight path of given width.

SCORING: Points will be deducted for stopping during the event, touching, or knocking the marker off, or driving to either side of the markers.

ALLEY DOCK BACKING

MAXIMUM SCORE – 50 points

PURPOSE OF EVENT: Back the bus into the stall and stop within the 3-foot box.

INSTRUCTIONS AND SCORING: The approach to the backup stall will be made from the left side only. A three-minute time limit starts when the front bumper passes the first upright standard. The bus must be parked in the stall, with the parking brake set and horn sounded with the three-minute limit. One backup is permitted before demerits are charged for excessive backing. Depth perception is tested by penalizing the driver for backing up too close to the rear barrier or parking the bus too far from the rear barrier, or not having the bus centered in the stall (front and rear). To evaluate the driver's ability to back the bus into a stall the width of the bus plus two (2) feet into which the driver must back their bus into without touching the upright standards and without crossing over the stall limit lines.

ROADSIDE STOP/START

MAXIMUM SCORE - 50 points

PURPOSE OF THE EVENT: Pulling over to the right side of the road as though something on the rear of the vehicle needed to be checked.

INSTRUCTIONS AND SCORING: The event will simulate a roadside pullover with limited length between cones. The roadside area will be marked by barriers which will be spaced 2 times the length of the bus. The contestant must pull into the area and pull out without backing up.

The contestant will be judged on the proper use mirrors, right turn signal, and hazards when pulling in and mirrors, turn off hazards, and left turn signal when pulling out. The contestant will be scored at both rear tire and service door entry on the farthest away from the marked line. A measure will be made to determine how close the bus is parked to the line. The contestant must turn on the hazards, place the bus in Neutral or Park, apply park brake and sound the horn.

OFFSET BACKING

MAXIMUM SCORE - 50 points

PURPOSE OF THE EVENT: This event is an offset alley. Drive forward (straight ahead) to the boundary line. Stop the vehicle, and then back it to the **left** lane until the front has passed the first set of cones. Set the parking brake and sound the horn when complete. Time starts when the front bumper enters the first set of barricades and ends when the rear bumper exits the last set of barricades.

INSTRUCTIONS: This is a timed 2-minute event. Time starts when the front bumper enters the first set of barricades and ends when the rear bumper exits the last set of barricades. This event is designed to evaluate the driver's ability to handle the bus under actual or simulated driving conditions. An offset alley is set up to determine the contestant's ability to drive the bus through two offset lanes with a minimum of hesitation and without touching barriers.

SCORING: Five (5) demerits will be given for each instance of stopping the forward motion of the bus while proceeding through the offset alley. Fifty (50) demerits will be given for opening the door while the bus is in

motion.

VEHICLE INSPECTION

MAXIMUM SCORE - 150 points

PURPOSE OF THE EVENT: This event is designed to evaluate the contestant's efficiency in conducting an inspection.

INSTRUCTIONS AND SCORING: This test is a judgment of the driver's ability to make complete physical inspection of the bus, **excluding starting the bus**. This includes checking under the hood, the general condition of the bus interior and exterior.

A **time limit of FIFTEEN (15) minutes** will be allowed for each contestant. If any reasonable assistance is needed when checking the bus, the judge will assist in any way that does not violate the spirit of the test.

Contestants will inform the judge **verbally** of the items they feel are defective. There will be **five (5) defects** on the vehicle that should be discovered by the driver on the daily check. Unless instructed otherwise, the vehicle is not to be started. Judge will inform contestant when "one minute is left."

SCHOOL BUS SPECS:

TYPE C - CONVENTIONAL
Various Years and Makes

TYPE D - TRANSIT
Various Years and Makes

TYPE A – SMALL BUS
Various Years and Makes

passengers (capacity): 74

passengers (capacity): 72

passengers (capacity): 29

SCHEDULE

All events take place at Fox Valley Technical College Transportation Center

FRIDAY, JUNE 23

1:00 – 5:00 pm Course setup
5:00 – 6:00 Early Check-In for Drivers – FVTC Transportation Center, Room T146
6:00 Drive course with early registrants/bus riders/judges

SATURDAY, JUNE 24

6:30 – 7:45 am Registration at FVTC, Room T146
7:00 Judges & volunteers orientation meeting in Room T144
7:20 Judges & volunteers course walk-through
8:00 Drivers - orientation meeting in Room T144
8:30 Drivers – course drive-through
9:00 Competition begins
11:00 – 1:00 Food truck on-site for self-serve lunch (**cash only**)
1:00 pm Competition Awards presented outside with photos

Safe travels home! Thank you for supporting the WSBA Safety Competition!
